

SPRING 2007 MEETING

CORAL's next meeting is scheduled for Friday, February 9, 2007 at 1:00 PM. Our host is the Southwest Research Institute, courtesy of library director Anita Lang. We will be meeting in the Library in Conference Room B4. Complete instructions for getting to SwRI, parking, and finding the building are included below.

As was the case with the fall meeting, all staff of CORAL institutions (both past and present members) are invited to attend this meeting. We are moving into the next phase of our planning year. Our consultants will be giving a presentation based on the results of the online survey that was completed in December and information gathered via focus groups and other methods in the fall. There will be a discussion of these results.

PLEASE SHARE THIS MESSAGE WITH YOUR COLLEAGUES AND WORK MATES!

We had a wonderful turnout at the fall meeting, and we want to keep up the momentum and participation rate as we continue the process.

LOGISTICS – MAPS, DIRECTIONS, AND PARKING

(Thanks to Anita Lang!)

Getting there – Visit the Institute's Web site at <http://www.swri.org/> Left side of site under Useful Information "Map from Airport" gives the best and easiest directions. If you are using MapQuest or other online mapping, destination is 6220 Culebra Road. If you are coming in from 90, take 151, exit Callaghan, turn right at light, follow to Culebra, turn left and at main gate turn left onto Institute grounds. I'll give you a short cut home when you are ready to leave.

Parking & Building/Room Location – The main gate is at the light at Culebra and Oak Hill. Right at light (if guard asks just say attending meeting in B84 the Library), proceed up drive to four way stop (Library, 4 story building diagonally right), turn right (Library on left), turn left onto Harold Vagtborg Drive and then left into Library parking lot. People can park wherever.

Martha Rinn, CORAL President
